

Getting Started with SpinTel's NBN Modem - VX230v

All SpinTel-supplied modems are pre-configured and ready to use straight out of the box, making it incredibly simple to set up.

At present, SpinTel offers TP Link VX230v modem for nbn service.

AX1800 Dual-Band Wi-Fi 6 VDSL/ADSL Modem Router Specs

Next-Gen 1.8 Gbps Speeds: Experience uninterrupted streaming, downloading, and gaming with Wi-Fi speeds up to 1.8 Gbps (1201 Mbps on the 5 GHz band and 574 Mbps on the 2.4 GHz band).

Connect More Devices: Wi-Fi 6 technology ensures a seamless network in your home, allowing you to connect more devices with Beamforming technology while minimising lag.

Versatile Connectivity: Compatible with VDSL2/ADSL2+/ADSL2/ADSL standards, supporting fiber and cable connections through the Ethernet port, as well as 3G/4G internet services via the USB port.

EasyMesh™ Compatible: Achieve comprehensive home Wi-Fi coverage with standard mesh technology. For extended coverage, simply add any EasyMesh™ compatible units or our [AX3000 Whole Home Mesh Wi-Fi System](#).

Interface:

- 1× DSL port (for NBN FTTN / FTTB connections)
- 1× Gigabit WAN port (for NBN HFC / FTTP / FTTC / FW connections)
- 3× Gigabit LAN ports (for multiple wired Ethernet connections)
- 1× FXS port (for analog telephone)
- 1× USB 2.0 port (for USB storage device file sharing)
