

How do I switch from ADSL to NBN?

To find out if the NBNCo has rolled out in your area, visit the [SpinTel website](#) and enter your address in the search bar.

Enter your address to see what service is available in your area

Override ▾

Start typing your address then select it from list

Check Address

Rather sign up over the phone? [Leave your details](#) and we'll call you!.

Once confirmed that your area is NBN ready, select the plan that suits your need and click on **Buy Now** to check out. Enter the necessary details on the secure checkout page, then submit the order.

Important: Select **YES** to add the new service on your existing account and log in with your *My Account* credentials.
