How to Setup Netgear AC800S for Internet (APN Settings)

Note: When the SIM card is inserted correctly, the necessary settings will automatically configure and establish a connection. Otherwise, check if it is <u>inserted correctly</u>, or you can try to set up the APN settings manually.

- 1. With your device connected to your modem, access the router web interface
- 2. Once logged in, click Settings

3. Go to Network, then select APN. Click Add.
