

iPhone mail

Setting up Mail on iPhone (iOS 11/12)

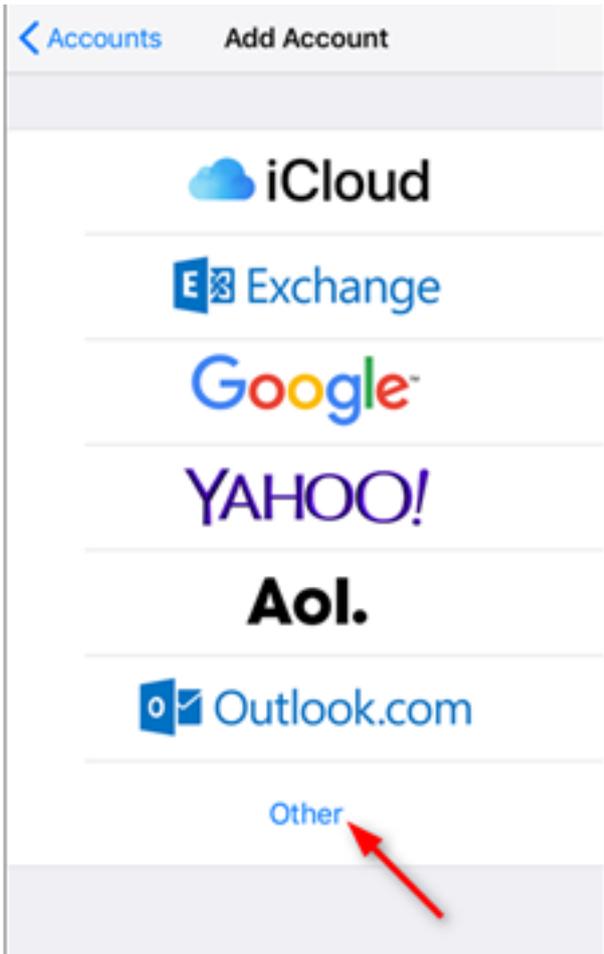

Step 1 - Go to Settings > Accounts & Passwords

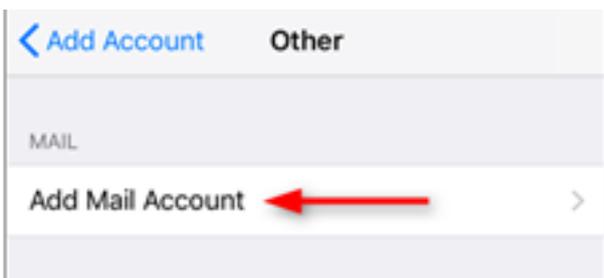

Step 2 - Tap Add Account

Step 3 - Tap Other as the account type.

Step 4 - Tap Add Mail Account

Step 5 - Enter your account details

Fill in the details shown below and click "Next"

Name: Your Name

Email: Your SpinTel email address

Password: Your SpinTel email password

Description: This will automatically come up, but you can change it.

Step 6 - Highlight the **POP** tab (will be in blue) and enter the settings below:

Incoming Mail Server

Hostname: pop3.spintel.net.au

Username: Your SpinTel email address (without @spin.net.au)

Password: Your SpinTel email password

Outgoing Mail Server

Hostname: smtp.spintel.net.au

Username: blank

Password: blank

The screenshot shows the 'New Account' configuration screen. At the top, there are three buttons: 'Cancel' (blue), 'New Account' (black), and 'Next' (grey). Below these are two radio buttons: 'IMAP' (blue) and 'POP' (white with a blue border). The 'POP' button is selected and highlighted with a red box. The main area is divided into two sections: 'INCOMING MAIL SERVER' and 'OUTGOING MAIL SERVER'. Each section has three input fields: 'Host Name', 'User Name', and 'Password'. These fields are also highlighted with a red box.

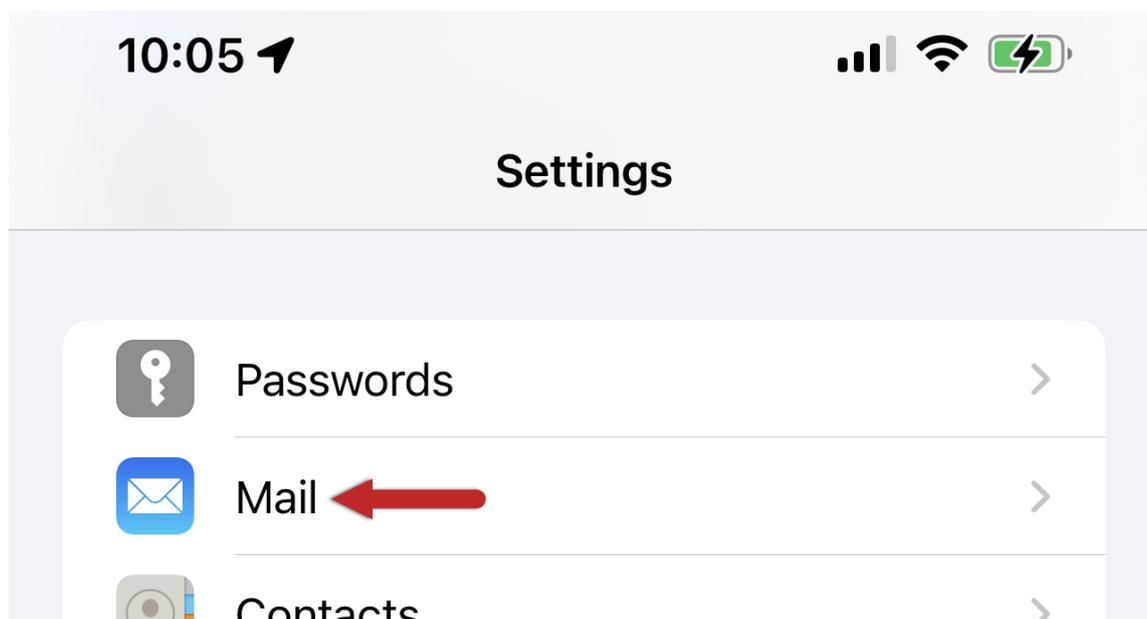

7. Tap **Save**, and your phone will try to verify again. This might take a few minutes.

If the phone prompts: *Cannot Connect Using SSL. Do you want to try setting up the account without SSL?*, tap **YES**.

8. Once it's finished configuring, it will return to the *Mail, Contacts, Calendar settings*.
