# iPhone mail

## Setting up Mail on iPhone (iOS 11/12)

Step 1 - Go to Settings > Accounts & Passwords

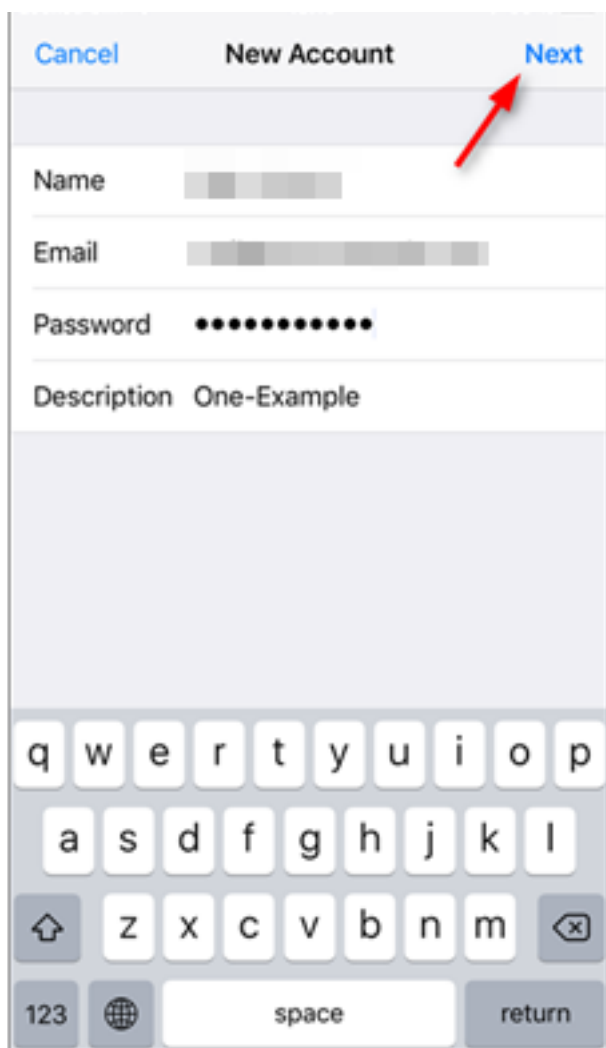

Step 2 - Tap Add Account

Step 3 - Tap Other as the account type.

Step 4 - Tap Add Mail Account

Step 5 - Enter your account details

Fill in the details shown below and click "**Next**"
Name: Your Name
Email: Your SpinTel email address
Password: Your SpinTel email password
Description: This will automatically come up, but you can change it.

Step 6 - Highlight the **POP** tab (will be in blue) and enter the settings below:

Incoming Mail Server
Hostname: pop3.spintel.net.au
Username: Your SpinTel email address (without @spin.net.au)
Password: Your SpinTel email password

Outgoing Mail Server

Hostname: smtp.spintel.net.au
Username: blank
**Password**: blank

7. Tap **Save**, and your phone will try to verify again. This might a take a few minutes.
 If the phone prompts: *Cannot Connect Using SSL. Do you want to try setting up the account without SSL?,* tap *YES.*

 8. Once it's finished configuring, it will return to the *Mail, Contacts, Calendar settings*.
