

Changing Basic User to an Administrator and vice versa

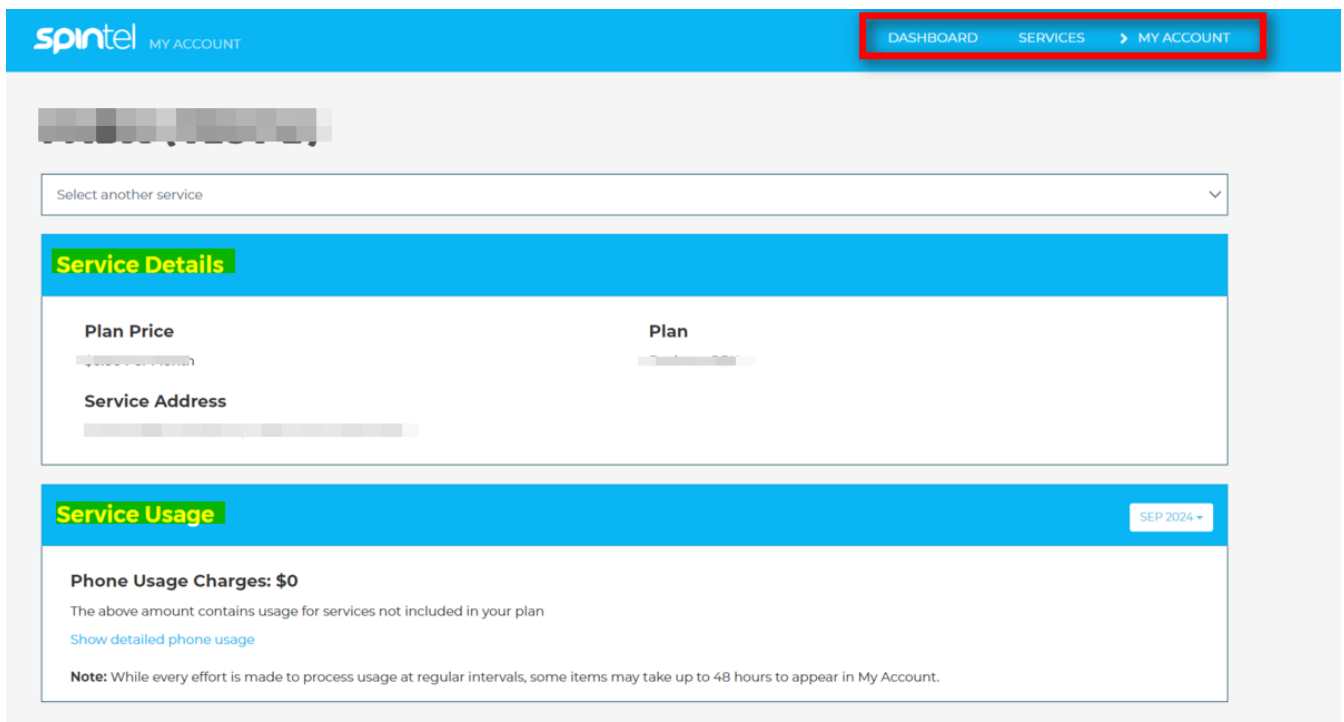

An account holder can change the level of authority from a Basic User to Account Administrator or from Account Administrator to a Basic User.

All **Account Moderator's** must be over 18 years old and can:

- Add new services
- Transfer ownership of services
- Update/change contact details, including phone numbers
- Disconnect a service
- Relocate services to another address
- Replace a missing/lost SIM
- Modify the monthly plan
- Add and remove other administrator users
- Check usage
- Raise faults and complaints
- Request or process a payment extension

- Update the payment method on file and modify the preferred billing notification
- Make a payment through My Account
- Access Bill history, and so much more

A **Basic user** is primarily intended for email use only and has limited access. They can view service usage but cannot make any changes to the account or modify settings. Compared to Account Moderators, Basic users do not have the option to modify the plan or access the Billing section.

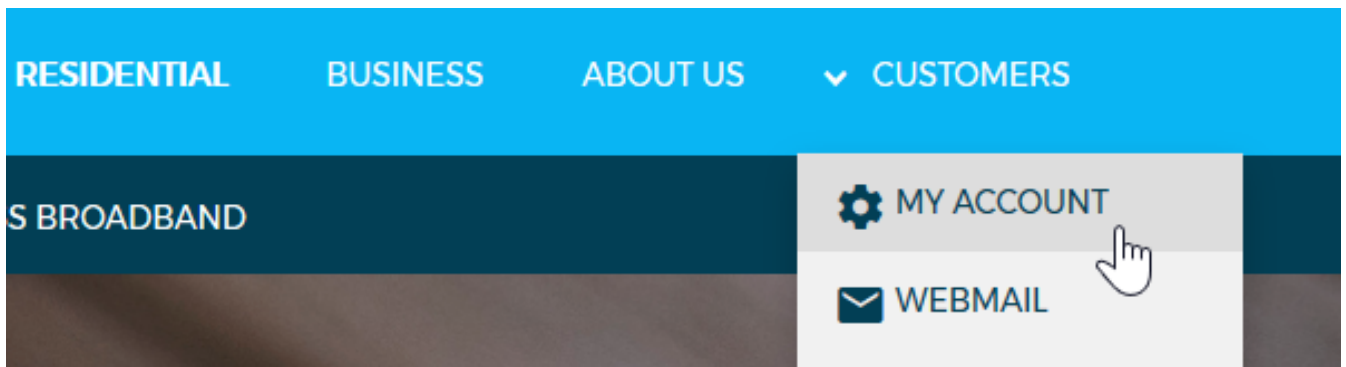

The screenshot displays the 'spintel MY ACCOUNT' interface. At the top right, a navigation menu includes 'DASHBOARD', 'SERVICES', and 'MY ACCOUNT', with 'MY ACCOUNT' highlighted by a red box. Below the navigation is a dropdown menu labeled 'Select another service'. The main content area is divided into two sections: 'Service Details' and 'Service Usage'. The 'Service Details' section shows fields for 'Plan Price', 'Plan', and 'Service Address'. The 'Service Usage' section shows 'Phone Usage Charges: \$0' and includes a link to 'Show detailed phone usage'. A note at the bottom of the usage section states: 'Note: While every effort is made to process usage at regular intervals, some items may take up to 48 hours to appear in My Account.' A date selector for 'SEP 2024' is visible in the top right of the usage section.

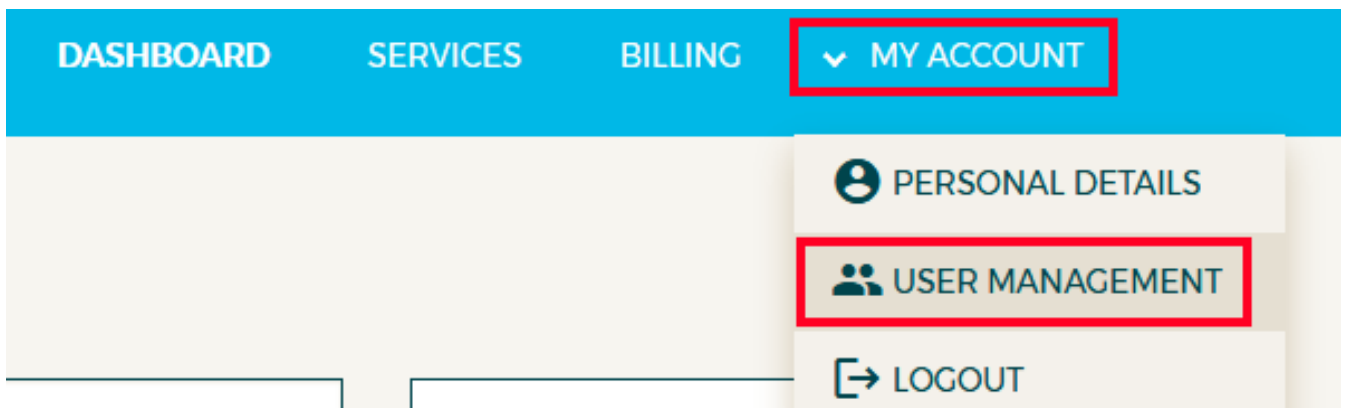

However, if they wish to make a payment, they can do so by making a one-time payment through the website, as long as they have the account number, the bill number, and the amount ready.

To change the between User types:

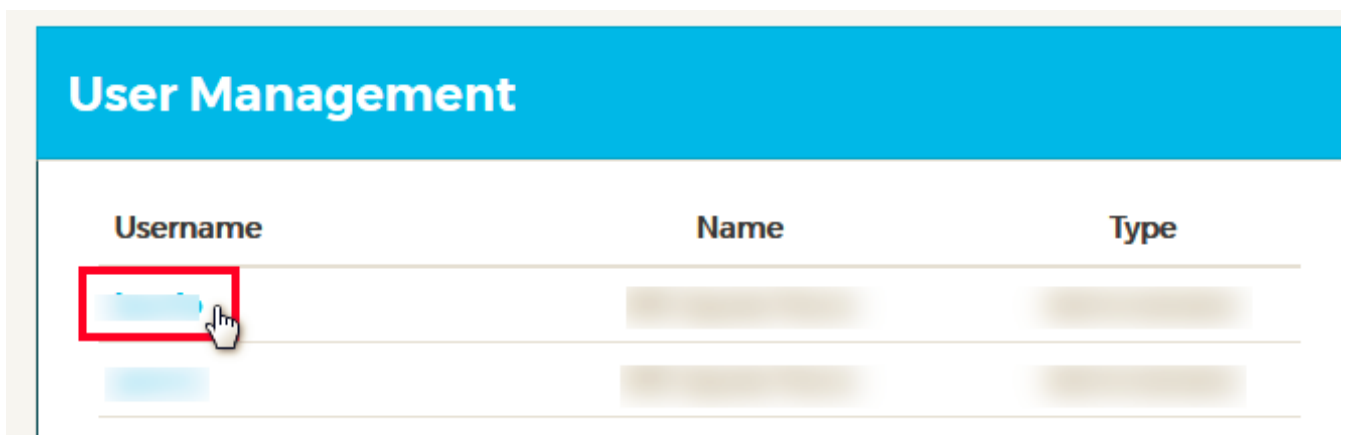

1. Login to My Account

2. Once logged in, click **My Account** and select **User Management**

3. Click on the username you want to modify

4. Select Change User Type and choose the new user type

User Details
