How much notice do I need to give when cancelling my services?

We recommend providing notice in advance to ensure your cancellation is processed before your next billing cycle begins.

Please note that SpinTel services are billed in advance. If you cancel your service, any unused portion of your prepaid billing period is non-refundable. To make the most of your payment, we suggest choosing an end date that aligns with the end of your current billing cycle—this way, you can continue using the service through the period you've already paid for.
