Things To Know

We will attempt to disconnect and connect your services on your requested dates, however this is not always possible. Actual time-frames may vary, depending on infrastructure and workload in your new area.

We will SMS and Email you an ETA for your relocation within 2 business days.

Relocating your service requires us to disconnect your service from one address and reconnect it to your address, this means you cannot normally retain services at your old location. If you need to leave your service active which may be the case in shared living situations, please contact us by phone to organise a change of ownership

Relocate Service

Tick the box if you agree to the terms in relocating your service and hit **Relocate Service**.

Note: You will receive a confirmation email and SMS with the order number and other important details. Please check your Junk Items and contact us if there are any errors.

*Some services take longer than others to provision so ensure you've given us sufficient time to process your request. We rely on the infrastructure owners such as Telstra, Optus or **nbn** and there is generally a process which needs to take place.*
