How to set up Parental Controls on TP-Link Modems

Parental Controls allow you to set up unique restrictions on internet access for each member of your family. You can block inappropriate content, set daily limits for the total time spent online, and restrict internet access to certain times of the day.

Please note that some features in the Parental Controls may vary by model.

To create a profile for internet access restrictions. Please follow below:

- 1. Log in to your modem/router's configuration page using your modem username and password.
- 2. Go to Advanced > Parental Controls
- 3. Click **Add** to create a profile for a family member.

	Network Map	Internet	(Reference) Wireless	
 Quick Setup Network 	Parental Control	Is time spent online and	check internet usage re	eports for your family members.
TP-Link ID		Parental Controls:	D	
Wireless		Current Time:		Time Settings
NAT Forwarding Parental Controls QoS	Profiles Create a profile to r	manage devices of fam	ily members.	
Security				_
VPN Server				G Ado
IPv6	Profile Name	Time Online/Limit	Internet Access	Action
Smart Life Assistant		0 / 5h 30min	Access Allowed	
OneMesh				
System				

- 4. Set the basic information for the profile.
 - 1. Name the profile.

- 2. Click Add and specify the devices belonging to the family member.
- 3. Click Next.
