

TP-Link HX510 Mesh Device Set Up through Aginet App (Wirelessly)

Before you start, please download the Aginet App for your mobile phone.

Effortless Setup and Use

Configure your device and network within minutes using the powerful TP-Link Aginet app or the intuitive web interface. The Aginet app lets you conveniently manage your network from your smartphone or tablet.

Step-by-Step Instructions:

1. Open your Aginet app and log in with your TP-Link ID. If you don't have one and want to create one, please follow the instructions [here](#).

If you don't want to create a TP-Link ID, you can click '**Continue without TP-Link ID**' to proceed further with the setup.

Log In

Create a TP-Link ID

Continue without TP-Link ID

2. Click on "Create a network."
