# How to Configure the APN Settings for Netgear AC810 to connect SpinTel 4G Home Internet

For the SpinTel Internet connection, you must manually configure the Access Point Name (APN) settings on your NETGEAR AC810. Follow these instructions to manually configure APN settings.

- 1. Press and release the Power button to restart your AC810.
- 2. Connect to the modem's Wi-Fi network
  - Make sure your device (Mobile/Laptop/Computer) is connected to the modem's Wi-Fi network. The Wi-Fi name and password are displayed on the LCD screen as shown below.

#### 3. Sign In to the Dashboard

• Open a web browser on your device and enter http://m.home in

the address bar or <u>Click here to access the dashboard</u>.

• Sign in using the password: **admin**.
