

SpinTel's mobile plans

SpinTel is one of Australia's leading service providers and we've received multiple awards, thanks to our innovative products, high-quality customer service and extensive nationwide coverage.

SpinTel's Mobile Plans have no lock-in contracts, so you can cancel anytime without incurring a termination fee.

The good news is that we help you avoid bill shock and any nasty extra charges by giving you the option of having your data automatically capped.

We'll keep you updated about your usage via SMS and email notifications when you reach 50%, 85% and 100%.

SpinTel uses Optus, one of the best network providers in Australia, to make sure our customers have access to a super-fast 4G network and a reliable service.
